**SUPPLEMENTAL DECLARATION OF JANE D. NETTESHEIM**

I, JANE D. NETTSEHIEM, declare:

In addition to the information disclosed herein, I incorporate by reference the Declaration of Jane D. Nettesheim, dated February 19, 2008 (the “Nettesheim Declaration”).

**I. Background and Scope of Engagement**

1. In the Nettesheim Declaration, I provided calculations of net gains or losses and retained shares as a result of transactions in the common stock of VeriFone during the proposed Class Period<sup>1</sup> for Movants for Lead Plaintiff in actions related to this matter.<sup>2</sup> I provided such calculation for all shares purchased during the proposed Class Period using two methodologies: the last-in-first-out (“LIFO”) methodology; and the first-in-first-out (“FIFO”) methodology. I have been asked to calculate net losses for

---

<sup>1</sup> The proposed Class Period is March 1, 2007 through December 3, 2008.

<sup>2</sup> The Movants for Lead Plaintiff included in this analysis are listed in ¶5 to the Nettesheim Declaration.

each Movant using the LIFO methodology on shares purchased during the Class Period and held through the end of the Class Period, *i.e.*, on retained shares. The data and methodologies are described below.

2. A summary of my qualifications are provided in paragraphs 1 and 2 to the Nettesheim Declaration. My curriculum vitae and the list of the expert testimony I have provided by deposition or at trial are attached as Exhibit 1 to the Nettesheim Declaration.

## **II. Methodology Used for Calculating Retained Shares and Losses**

3. The data used in this analysis are described in the Nettesheim Declaration.<sup>3</sup> In this analysis, purchase and sale transactions are matched using the LIFO methodology also which is described in the Nettesheim Declaration.<sup>4</sup> Losses are calculated for shares purchased during the proposed Class Period and retained through the end of the Class Period. When the Movants' account or fund sold more shares as of certain dates in the Class Period than the number of shares purchased (including both pre-Class Period and Class Period purchases) as of those dates, the sales transactions are matched with subsequent purchase transactions. Such purchases are not included in the number of retained shares or losses on retained shares.

4. For shares purchased during the Class Period and retained through the end of the 90-day lookback period, per-share losses are the difference between the purchase price and the mean closing price of VeriFone stock during the ninety days following the Class Period ("90-day average price").<sup>5</sup> For shares purchased during Class Period and

---

<sup>3</sup> Nettesheim Declaration, ¶¶4–6.

<sup>4</sup> Nettesheim Declaration, ¶¶7–10.

<sup>5</sup> The 90-day period following the Class Period begins on December 3, 2007, and ends on March 2, 2008, which has not occurred as of the date of this Supplemental Declaration. The 90-day average price used in this Supplemental Declaration is the average of

sold during the 90-day lookback period, per-share losses are the difference between the purchase price and the greater of the amount received from the share sale and the average price of VeriFone stock during the period from December 3, 2007, through the date of sale.

5. Losses are determined separately for each account or fund held by each Movant. Net losses on VeriFone shares purchased on the TASE are calculated in NIS and converted to U.S. dollars using the currency exchange rate as of February 15, 2007.<sup>6</sup>

6. A summary of the total retained shares and total net losses on retained shares for each Movant by account or fund using the LIFO method described above is provided in Exhibit 1 to this Supplemental Declaration. The calculations of total retained shares and total losses on retained shares for each Movant by account or fund are provided in Exhibit 2.

7. This analysis is subject to change pending revisions in either the data or assumptions underlying this analysis.

---

VeriFone closing stock prices from December 3, 2007 through February 15, 2008, and is \$19.97 for VeriFone stock in the U.S. and 76.18 NIS on the TASE.

<sup>6</sup> The exchange rate as of February 15, 2008, is 1 NIS = U.S. \$0.2779. (Source: [www.oanda.com](http://www.oanda.com))

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

Executed this 21<sup>st</sup> day of February, 2008 at Redwood City, California.
